ABOUT ME

Since I was very small, the immense passion for the mountains has been transmitted to me: on foot, on skis, on rocks or ice falls... every season and every terrain has its own particular charm.

At 20 years old, the attraction for competitions took over (initially for ski mountaineering and lately for ultra-trail) and the consequent awareness that we can do everything we dream of and it seems impossible thanks to perseverance, the ability to have fun and the search for new challenges.

After studying as an interior designer, I gained the awareness of wanting to make my love for the mountains a lifestyle and, why not, a job: the possibility of passing on one's passions to others is a privilege that not everyone can afford.

I recently became AMM of the Collegio Guide Alpine Lombardia, E-bike guide, Natural-running instructor and Nordik Walking instructor.
